

RAMFAN EXHAUST DIVERTER

A new and improved exhaust diverter for the RAMFAN PPV Turbo Blowers is now available. The newly redesigned exhaust diverter has been improved for rerouting unwanted carbon monoxide away from the work area. The new diverter hose has increased in diameter and length to 2" x 12' for improved performance and can quickly couple to additional hoses in increments of 12' to divert CO fumes even further away. Call now to place your order.
